Clinton Avery | Software Engineer and Solutions Architect

Greenville, NC | (402) 618-9347 | clintonjavery@gmail.com

SUMMARY

Every project has its challenges—figuring out requirements, building solid code, setting up pipelines, or handling curveballs. That's where I come in. I'm a full-stack engineer with 5+ years of experience in the software development lifecycle, from user-friendly frontends to efficient backends, event-driven systems, and CI/CD pipelines. I deliver robust, maintainable solutions built to last. Whether a team is stuck, starting fresh, or scaling fast — I'm here to help make it successful.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, VB.NET, SQL, HTML, CSS, Java
Frameworks: ASP.NET, NServiceBus, React, .NET MAUI, Xamarin, Azure DevOps
Cloud: Azure, AWS, Cloudflare
Tools: Visual Studio, SSMS, MySQL, Postman, Unity, Photoshop

PROFESSIONAL EXPERIENCE

Sogeti | October 2020 – Present
Senior Software Engineer (Manager Consultant) / Team Lead / Tech Lead
- Designed, built, maintained, and improved applications in the billing and payments system for a large Insurance Company. .NET APIs hosted in Azure Kubernetes Service, NServiceBus Event Handlers, Azure SQL Databases, C# console applications running as daily batch applications, front-end web applications, CHEF configurations for infrastructure, build and release YAML pipelines in Azure DevOps.
- Collaborated closely with business stakeholders to determine requirements for billing and payments applications.
- Led a hybrid (onshore/offshore) team, promoting collaboration through pair and mob programming (force multiplier).
- Streamlined development by creating tools like the JWT Grabber and Sample Policy Grabber, cutting steps and reducing errors, also creating a space for development tools to be created and hosted easily.
- Converted legacy COBOL payment systems to .NET, making it so that more engineers could work on the payment system.

Gallup | June 2019 – October 2020
.NET Developer
- Tackled complex web development issues, resolving navigation and functionality issues on Gallup Access.
- Recognized for technical persistence and problem-solving on critical sprints.

Mutual of Omaha | June 2014 – May 2019
Life Underwriting Case Manager
- Developed a case management point system, fostering accountability and improving workflow efficiency.

USMC | January 2007 – January 2012
Marine Sergeant / Arabic Linguist / SIGINT Operator
- Managed and maintained SIGINT operations, contributing to over 500 intelligence reports.

EDUCATION & CERTIFICATIONS & LANGUAGES

- M.S. in Computer Information Systems, *Bellevue University*
- B.A. in Philosophy, *University of Nebraska Omaha*
- AZ-204: Azure Developer Associate
- Arabic (Modern Standard Arabic – ILR 3) – Professional reading & writing proficiency
- Spanish - Basic
